

Managing Grey Fleet

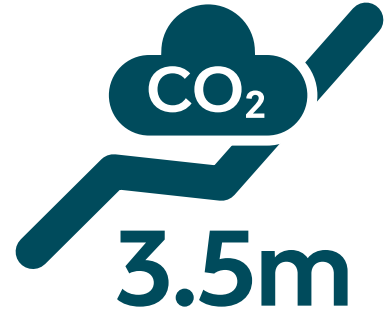

The scale of the UK's Grey Fleet has been revealed in a comprehensive report from industry body BVLRA.

of all vehicles in the UK are **Grey Fleet**

worth of potentially **unmanaged costs** from mileage claims and car allowances

tonnes of **CO₂** emitted per year

average age of cars on UK roads

tonnes of **NOx**, equivalent to twice the emissions from **London buses**

in work-related **road accidents**

Journey Check List

- 01 Is face-to-face meeting necessary? If no: Use Webinar, Video Conference.
- 02 Check public transport options and costs.
- 03 Check pool car availability.
- 04 For 50+ mile journey use Daily Rental.
- 05 If using grey fleet - ensure controls are carried out.

50+ miles journeys

Consider using **Public Transport** or **Daily Rentals**

5,000 miles per year

Consider using **Vehicle Leasing**

Grey Fleet Controls

There are two elements for consideration prior to authorisation of a grey fleet journey - the vehicle and the driver.

Driver

- Licence check
- Vision check
- Driver risk assessment
- Online driver training
- Driver training

Vehicle

- Road Fund Licence
- Service History
- MOT check
- Insurance check
- Physical vehicle safety inspection

LeasePlan
