

LeasePlan - Product factsheet

UPtime Live

A man with short dark hair, wearing a dark blue shirt with a red collar, is seen from the chest up, smiling and looking out the window of a white commercial vehicle. The vehicle's steering wheel and dashboard are visible. The background is a blurred outdoor scene with other vehicles. A large, stylized orange graphic, resembling a series of connected 'W' or 'M' shapes, is overlaid on the bottom half of the image.

UPtime Live

Maximising utilisation of your business-critical commercial vehicle fleet

Uptime Live

Why use Uptime Live?

Unless managed correctly, vehicle downtime can have a significant financial impact on the running of your fleet. We have developed **Uptime Live**, part of our integrated suite of fleet management tools designed to future-proof your business-critical operations.

Vehicle off Road (VOR) incurs costs and stops your business operating efficiently, impacting your competitive edge and bottom line. The estimated average daily cost of VOR is £727.**

The cost of the repair, servicing or maintenance work is just the beginning. You also need to factor in lost commercial opportunities, driver's salary and potential reputational damage associated with vehicles being unable to fulfil their duties.

LeasePlan's Uptime Live delivers a cutting-edge digital solution to downtime, helping you maximise your fleet's utilisation and keep customers satisfied.

Uptime Live and you

Uptime Live plans and executes the most efficient vehicle maintenance programme to maximise your in life vehicle utilisation. It proactively manages all scheduled events, measures vehicle off road (VOR) time by the minute, and provides you with active defect management and rectification.

Uptime Live also captures, chases and manages all unplanned events too so you don't have to.

Uptime Live integrates with your vehicles' telematics, which are required to provide proactive management of all service, maintenance and repair work.

With real-time information available through a customer portal, Uptime Live provides up-to-the-minute status checks on every vehicle, making it a powerful fleet management tool.

Uptime Live is already reducing downtime, in pilot it saved our customer up to 60%*.

If you can see it, you can measure it and we do the managing through Uptime Live.

Benefits of Uptime Live

- ✓ Reduces costs by helping fleets drive down VOR through real-time monitoring of scheduled and unscheduled work.
- ✓ Plans and executes the most efficient maintenance programme by using the telematics already in your vehicles.
- ✓ Vehicles are maintained and to the highest levels, meeting your operational and legal obligations.
- ✓ Cuts administrations because everything you need is in one place and monitored 24/7.
- ✓ Live data available for you to answer incoming queries from business unit managers enabling them to manage their departments efficiently.
